Clinical Trials Coordinator – Medical Devices

Description

A growing New York based Medical Devices company is looking for someone to take over the setting up and management of the Clinical Trials for their Medical Device as a Clinical Trials Coordinator or Clinical Research Coordinator.

Ideally you will have had experience in clinical trials of medical devices, however if your experience has been on the pharmaceutical side, we would still be interested in speaking with you. This experience will ideally be for one-year but we could consider slightly more or slightly less experience.

It would be highly advantageous if you have any experience on electro-medical medical devices or wearable medical devices clinical trials.

This company is growing and will be offering more career development in the future as their product becomes more successful. This is a great role for someone with career aspirations.

Due to the career development on offer, I'm expecting a lot of interest. So, if you are interested, I suggest making an application now or risk missing out.

For more information, please feel free to call Andrew Welsh, Director of Medical Devices recruitment and Scientific recruitment specialists Newton Colmore Consulting, on +44 121 268 2240 or make an application and one of our team at Newton Colmore Consulting will contact you.

Newton Colmore Consulting is a specialist recruitment company within the Medical Devices, Scientific Engineering, Scientific Software, Robotics, Data Science, Healthcare Communications, Science, Electronics Design, New Product Design, Human Factors, Regulatory Affairs, Quality Assurance and Field Service Engineering sectors.
